CreateSpace Independent Publishing Platform. Paperback. Book Condition: New. This item is printed on demand. Paperback. 260 pages. Dimensions: 9.0in. x 6.0in. x 0.9in. Authors Note: Remember When is the first book in a romance trilogy. It is intended for mature teen readers and immature adult ones due to some high school sex scenes, questionable language, underage drinking and 1980s flashbacks. Years before Trip Wiley could be seen on movie screens all over the world, he could be seen sitting in the desk behind me in my high school English class. This was back in 1990, and I cite the year only to avoid dumbfounding you when references to big hair or stretch pants are mentioned. Although, come to think of it, I am from New Jersey, which may serve as explanation enough. We were teenagers then, way back in a time before anyone, himself included, could even dream he'd turn into the Hollywood commodity that he is today. I'm sure I don't need to tell you who Trip Wiley is. But on the off chance you've been living under a rock for the past decade, just know that these days, he's the actor found at the top of every casting director's wish list. He's incredibly talented and insanely gorgeous, the combination of which has made him very rich, very famous and very desirable. And not just to casting directors, either. I can't confirm any of the gossip from his early years out in Tinseltown, but based on what I knew of his life before he was famous, I can tell you that the idea of Girls-Throwing-Themselves-At-Trip is not a new concept. I should know. I was one of them. And my life hasn't been the same since. This item ships from La Vergne, TN. Paperback.
