DREAMS OF OUR FOREFATHERS: THOUGHTS ON BUILDING A SAFER, STRONGER, AND PROUDER NATION (PAPERBACK)

Outskirts Press, United States, 2011. Paperback. Book Condition: New. 211 x 140 mm. Language: English . Brand New Book ***** Print on Demand *****.The book Dreams of Our Forefathers a story of illiteracy, lack of empowerment for the people, national identity and inheritance in our society that leads to disunity and individualism across the country. It is a story of building a safer, stronger, prouder nation and achieving the greatest potential in the face of adversity. The inheritance of unemployment and underemployment that served as common factors for developing nations across the world and the wilding of the education, leadership, economic and gender gaps in those nations. This book is urging our society to educate and empower its people because the lack of empowerment and illiteracy are national security issues, and unless these issues are placed on the frontline of national development, we might just be weakened and, in some cases, almost defenseless. This book is urging society to engage and build a system that works for the people and not the people for the system thereby putting the people and the national interest of our society above individual greed while creating a national identity where the people see themselves as part of the whole because we shared common interest and have common destiny. The value that we ought to be united, educated and empowered the masses cannot be underestimated in the building of a safer, stronger, and prouder nation today. For many years now, we have been digging our way out of a hole dug by several years of insufficient attention to equality, self-sufficiency, unity, education and economic empowerment in different administration. This book intends to admonish our leaders not take their eyes on the fundamental principle of the land (A safer, stronger, and prouder nation) because we have...
