Brand New Book ***** Print on Demand *****.Excerpt from Elements of Pedagogics I have long believed that the elementary principles of pedagogics should be taught in teachers institutes. The rudimentary principles of educational psychology are easily within the comprehension of anyone otherwise qualified to teach the common school branches. It does not require a scientific knowledge of the phenomena of the soul to understand sound methods of teaching. In the unsolved and theoretical problems of psychology, teachers have really no interest. With the speculative elements of the science they are not concerned. But to teach any subject properly requires some knowledge of the principles which govern the growth of the mind.
